July 2012 Newsletter

Another great morning at Straddie. Twenty nine aircraft attended in fine morning weather and the forecast of SSW wind gusts to 30 knots did not eventuate making for uneventful approaches to runway 15. Fifty two breakfasts were served and enjoyed and, as usual, the hard working members led by Pat did a marvellous catering job.

Above: smiling arrivals striding to our July 2012 breakfast.

Most should be aware by now of the two wind sensor and communication towers eighty metres high being constructed at Enterprise mine about 5 nm south of the strip. Beware!

Pilots please be sure of your ground handling abilities after touch-down, especially in tail draggers. An anxious moment was had by many of us but fortunately a recovery was made in the nick of time. See you all on the 18th Aug!
