March 2013 Newsletter

While March's Fly-in Breakfast was actually cancelled on the previous Wednesday afternoon, twenty-four aircraft and thirty-two flyers arrived at YDUN, many expecting breakfast anyway.

On Wednesday, all members were notified of the cancellation by email as well as notices to this effect placed on the club's website and aeroclub's website.

While she was hoping to spend the weekend resting her knee after a recent operation, Pat thought this might happen as it did last year when one of the fly-in breakfasts was cancelled and had decided to drive to Straddie and put plans in place for a breakfast of some sort for the people who turned up anyway.

As it happened, everybody enjoyed a basic impromptu breakfast of bacon, sausages and eggs for \$10.00 with a big thank-you to all the helpers who made this possible.

Because of such enthusiasm and support shown for the Fly-in Breakfast last Saturday, Pat has decided to avoid making any cancellations in the future.

Repairs and improvements to the airfield continued this month with the replacement of the shed's water pump and engine mounts for the main generator. While the shade-sails are not up yet, this is expected to happen soon.
