May 2011 Newsletter

Weather once again plagued our May Breakfast Fly In; when will this end? Surely our glorious winter days will be back next month.

However we did have 12 aircraft that dodged the showers to make it and 17 breakfasts served.

It all started all right about 8.30 with light showers but at 9:00 am it all came down with people eating either inside or in the shed.

At one point someone asked how many could be accommodated for the night!
Everyone had a good chat close up and personal for the next hour then it cleared enough for everyone to run for it.

Our strip certainly is well drained, as wet as it was and with 20mm overnight it was quite safe.

No people photos to show but attached are some great flying photos by Dan Wilson illustrating this wet event.

Remember our website Photo Gallery is always being updated after each fly in so check it out to see brilliant photos by Dan Wilson.

Hope to see you all in June so fly safe.
